

EC CONFORMITY CERTIFICATE

The Société Nationale de Certification et d'Homologation s.à r.l.
(SNCH) Luxembourg certifies in accordance with SNCH
procedures that the certificate holder named below fulfills the
provisions of EC Directive 2000/14/EC Annex VIII.

1. Certificate Holder:	HIMOINSA s.l. Ctra. Murcia – San Javier, km 23,6 E-30730 San Javier (Murcia)
2. EC Conformity Certificate No:	e13*2000/14*2000/14*0489*00
3. Manufacturer:	HIMOINSA s.l. Ctra. Murcia – San Javier, km 23,6 E-30730 San Javier (Murcia)
4. Notified body, delivering the certificate:	Société Nationale de Certification et d'Homologation
5. EC Directive Applicable:	2000/14/EC - Annex VIII
6. Equipment Category :	Power generators (according to Annex I, item 45)
7. Statement of Conformity:	<div style="display: flex; align-items: center;">  <p>It has been verified that the certificate holder meets the provisions of EC Directive 2000/14/EC. Periodical on-site audits are carried out by Luxcontrol SA.</p> </div>
8. Place: Date: Stamp and Signature:	<p>Sandweiler August 26th, 2004</p> <div style="text-align: right;">   </div> <p>Gilles AST Expert technique</p>
9. Remarks:	None

1. **General**

1.1. **Test Provisions**

The inspection was carried out according to the Council Directive of the European Communities 2000/14/EC, Annex VIII including all amendments up to 2000/14/EC of May 8, 2000.

1.2. **Information concerning the equipment**

(1.) Certificate holder:

HIMOINSA s.l.
Ctra. Murcia – San Javier, km 23,6
E – 30730 San Javier (Murcia)

(2.) Manufacturer:

HIMOINSA s.l.
Ctra. Murcia – San Javier, km 23,6
E – 30730 San Javier (Murcia)

(3.) Description of equipment:

(3.1.) Category: **Power generators (according to Annex I, item 45)**

(3.2.) Trade name: **HIMOINSA**

(4.) Date of test: **8.03.2004**

(5.) Address(es) of assembly plant(s):

HIMOINSA s.l.
Ctra. Murcia – San Javier, km 23,6
E – 30730 San Javier (Murcia)

(6.) Remarks:

none

2. Inspections and their results

2.1. Inspection items

	Location of test:	Date of inspection item:	Inspector
Main report:	See item (5.)	03.03.2004	A. Tomasini

2.1.1. Audit performance:

The audit was done to determine if the manufacturer meets the requirements of Directive 2000/14/EC – Annex VIII.

The quality management system of the manufacturer is certified according to ISO 9001 2000, certificate no. E203550 (LRQA)

The quality management system's conformity with the standard was determined through a review of the quality manual and procedures (where applicable) related to the requirements of the Directive. Individual process operations and their description in the documented procedures were checked by observation, review of quality records and personal interviews.

During the audit, the auditor(s) may have made observations concerning the quality management system or identified areas for improvement. If applicable, they are documented in the conclusion statement under section 3.2. of this report.

As part of the audit, applicable documents were reviewed to determine their compliance with the pertinent standard.

2.1.2. Quality assurance system assessment:

2.1.2.1. Design and product quality

The quality objectives and the organisational structure, the responsibilities and powers of management in regards to design and product quality are defined.

2.1.2.2. Technical documentation

The technical documentation complies with the requirements of item 3.1., Annex VIII of the Directive.

...

2.1.2.3. Design and quality control

Techniques are in place to assure the design control and design verification when designing products pertaining to the equipment category covered. Manufacturing and quality control processes assure the systematic examination of the products before, during and after manufacturing at predetermined frequencies.

2.1.2.4. Quality records

Quality records pertaining to inspection reports and test data, calibration data and qualification reports of the personnel concerned have been verified and are in compliance with the requirements of the Directive.

2.1.2.5. Monitoring processes

The manufacturer has put in place a process that monitors the achievement of the required design, the product quality and the effective operation of the quality assurance system.

2.2. **Remarks**

The inspection results are only applicable to the equipment and the facilities, which have been audited.

If significant changes to the quality system, senior management, management representative, facilities or the quality documentation should occur during the period of validity of the certificate, the company is responsible to notify the notified body of these changes in order to assess if any additional action is needed in order to maintain certification.

The conclusions of the auditor(s) do not release the company from its responsibility to ensure compliance with and constant observance of the requirements of the standards.

Periodical surveillance audits will be carried out to assure the maintenance of the quality assurance system.

The manufacturer keeps all documentation pertaining to the covered equipment at the disposal of the national authorities for a period ending at least 10 years after the last equipment has been manufactured.

2.3. **Test facilities**

All measuring and test equipment used to carry out the inspections are in accordance with the EC-Directive as stated in section 1.1. of this report. Before the measurement, the equipment is calibrated according to the requirements.

3. **Evaluation of test results**

3.1. **Test facilities and equipment covered**

The inspections carried out cover the following equipment and facilities:

- equipment: see section (3.1.) of this report: "Category"
- facilities: see section (5.) of this report: "Address(es) of assembly plant(s)".

3.2. **Conclusion**

3.2.1. **Main report:**

The quality assurance system of each facility audited was in compliance with the requirements of Directive 2000/14/EC – Annex VIII. The manufacturer has demonstrated the operation of a quality assurance system for manufacture, final inspection and testing of the equipment.

4. **Statement of compliance**

The inspection items and measurements carried out have shown the compliance of the equipment and facilities described in this report with the requirements of the Council Directive of the European Communities 2000/14/EC, Annex VIII including all amendments up to 2000/14/EC of May 8, 2000.
